# A Leading Manufacturer of PV Modules

## About Us

Sonali Solar is a leader in the photovoltaic market arena with an unprecedented reputation. We are committed to providing a superior product, timely delivery and exceptional customer service. As a manufacturer of photovoltaic modules we can ensure that our clients receive a highly efficient product along with excellent pricing. We are dedicated to quality, innovation and improved efficiency as we pursue solar energy expansion around the world.

Sonali Solar is a global company, with customers in the US, Asia-Pacific and European markets. Our corporate headquarters is located in northern New Jersey and we own and operate a state-of-the-art manufacturing facility in India. Our management team has a proven track record of success in business, with decades of business experience drawn from our parent group of companies that have been in business since 1965.

## Sonali Solar Benefits

- Exceptional Customer Care
- Competitive Pricing
- High Product Efficiency
- Guaranteed Product Reliability

## Our Mission

To work towards establishing solar energy as a primary source for all commercial and residential properties throughout the US. This is an opportunity for each community to use a clean renewable energy as their main source of electricity. We don't need to rely of unsustainable fossil fuels any longer, now is the time to thrive on the planet's abundant supply of renewable energy. This will not only transform our economy but will ensure a brighter future for the next generations.

## Quality Control

Our photovoltaic modules are manufactured and field tested to ensure that we deliver the most reliable products. We use the most advanced equipment and first class

## *Our Product*

---

### Top Performance Mono/Poly Crystalline Modules

#### Product Features

- High performing photovoltaic modules made from Poly crystalline silicon solar cells
- Junction box is integrated with 4 bypass diodes to minimize power loss in shading
- Module sizes range from 3W to 300W
- Maximum system voltage is 1000V/600V
- Anodized aluminum framing ensures strength and durability

#### Quality Guarantee

- Power warranty for 25 years
- Product guarantee for 10 years covers any defects in product materials
- Customers receive 100% of the module's rated power at time of purchase
- UL 1703 certified and IEC 61215

#### Application Possibilities

- Both on-grid and off-grid PV systems
- Residential and commercial rooftops
- Solar farming and ground installations
- Utility scale applications
- Carports

## *Our Company*

---

### Global Awareness

Sonali Solar recognizes the importance of creating awareness about the use of renewable energy sources. We help to bring light to this topic by participating in solar industry exhibitions around the world. We believe that it is important to engage our consumers and give them access to our company, and that it is our responsibility to educate our consumers on the PV modules that best fit their project needs.

### Why Sonali Solar?

Sonali Solar is committed to making solar energy affordable for every single consumer. We have the knowledge and expertise needed to meet our clients' expectations. This includes our global team of qualified experts and engineers who make sure that our modules produce the maximum power per square foot.

We take great pride in our work and will make sure that each customer receives the finest service, care and products. Our goal is to provide a highly efficient product with exceptional customer service. By associating with Sonali Solar you are partnering with an expert team of professionals with a proven track record of success.

### Company Goals

- Innovate and supply PV modules for a better environment
- Operate a first-class manufacturing facility to continually meet demand
- Continue to provide high performing modules at a competitive price
- Conduct on-going research and development to improve our product's quality
- Conduct on-going training to ensure our team has full product knowledge
- Maintain long-term customer relationships
- Continue growing in new and emerging markets
- Expand Sonali Solar into an internationally recognized brand

## *Production*

### Production Capacity

We are one of the leading manufacturers of photovoltaic modules in India. Our state-of-the-art manufacturing facility is automated to ensure product quality. We have a 50MW capacity and we plan to add another 40 MW automated line by 2013.

### Government

Sonali Solar has signed a 200 Crore MOU (equivalent to US\$45 million) with the government of Gujarat, India for the solar power generation and manufacturing facility.
